# CollagenBoost Protocol

An innovative aesthetic medicine program meticulously designed to revitalize your skin by **stimulating collagen production**.

As we age, our bodies produce less **collagen**, which can lead to wrinkles, sagging, and a loss of radiance. The CollagenBoost Protocol is engineered to counteract these effects by encouraging your skin to ramp up its own **collagen synthesis**.

The **CollagenBoost** Protocol it's a long-term investment in the health and appearance of your skin. By participating in our program, you'll notice your skin becoming **firmer, smoother**, and more **supple**. With continued care, these benefits will support a youthful complexion that lasts.

## How are we going to achieve that?

1. Initial **skin analysis**, allowing us to customize your treatment plan to match your unique skin type and goals.
2. Seeking patient **commitment** so they can engage in the process and build **trust**.
3. **Aesthetic procedures** to stimulate collagen production, better quality of the skin and elasticity.

# ¿What are you going to receive?

- The program begins with an **initial session** with the patient to discuss their specific concerns and goals, their skin type, beneficial products, and program follow.
- **1 Platelet-rich plasma** (PRP) treatment for the face, that has growth factors and helps to stimulate collagen production in the skin.
- **Facetem treatment** that has calcium hydroxyapatite that stimulates the production of collagen, which helps to improve skin elasticity and firmness.
- **3 Microneedling treatment** is also known as collagen induction therapy because it stimulates the production of collagen and elastin, two proteins that help maintain the skin's youthful appearance.
- **3 Silk treatment** with polynucleotides that utilizes polynucleotides, which are molecules known to stimulate cell regeneration, collagen production, and tissue repair.
- **Skin boosters with Hyaluronic Acid**, that helps to hydrate the skin from within and improve its elasticity and smoothness.
